## EDUCATION

Jaypee University of Information Technology	Bachelor of Technology in Computer Science Engineering (2021-2025)	CGPA - 7.0
ST.Conrade's Inter College	Class XII (2021) Percentage - 78 %	Class X (2019) Percentage - 80 %

## WORK EXPERIENCES

### Facere Technologies pvt ltd | Summer Intern

June 2024 - July 2024

- Collaborated with a team to develop web-based applications, focusing on multi-level approval workflows and integrating email/SMS notifications.
- Worked on the frontend, implementing user-friendly features like registration, check-in, and check-out, ensuring smooth functionality across devices.
- Co-designed an admin dashboard for configurations, reporting, and user management, while contributing to other frontend projects.

### OctaNet SW. Services | Web Development Intern

June 2023 -Aug 2023

- Built websites with a focus on improving user engagement, using HTML, CSS, and JavaScript to create responsive designs compatible across different devices.
- Enhanced the user experience by making the websites more accessible and easy to use on various screen sizes and platforms.

## PROJECTS

### Flower Recognition

- Optimized conservation efforts by applying machine learning for accurate identification and cataloging of floral species.
- Utilized software tools including Python and libraries like TensorFlow, PyTorch, and Scikit-Learn.
- Implemented machine learning algorithms and image processing techniques to enhance the accuracy of species identification.

### Amazon Website | (Clone of Amazon)

- Created a responsive and interactive user interface for an Amazon clone project, leveraging HTML, CSS, and JavaScript to deliver an engaging experience for users.
- Gained experience in front-end development, ensuring the application was smooth and user-friendly across different devices.

### Weather API

- Built a weather app using HTML, CSS, and JavaScript that shows live weather data.
- Used an online service (API) to get accurate weather information by location.
- Designed a user-friendly interface for searching weather by location.

## SKILLS

Languages	: C++, Python
Development	: HTML, CSS, JavaScript, React.js, MySQL
Others	: Git, VS Code, OpenCV, Numpy
Soft skills	: Creativity, Teamwork, Communication, Adaptability, Leadership, Work Ethic

## EXTRACURRICULAR ACTIVITIES

- JYC Sports Club (2023-24) | Coordinator
- IEEE Student Branch JUIT (2021-23)| Senior Member
- Rotaract Club of Wahnaghat (2021-2023) | Senior Member

## ACHIEVEMENTS

- Web-O-Fiesta (2024) | First Position
- BasketBall (2019) | Nationals

## COURSE WORK

DataBase Management System, Data Structure and Algorithm, Object Oriented Programming, Operating Systems
